

## **HIGH-RISES ARE JUST A LOAD OF RUBBISH**

NO matter how appropriate the design of a high-rise building, it is still a high-rise and that equals more people, and more people equals more sewerage, rubbish and traffic. That equals more population, and population equals climate change.

Don't turn Hobart into another ordinary, overcrowded, itty bitty city. Hobart can be modern and gracious. Hobart doesn't need high-rise buildings.
