

Spin cycle

REALLY Mr Gutwein! What a load of spin, spin and more spin. (Talking Point, July 3). It is glaringly obvious to the people of Tasmania that your Statewide Planning Scheme is an unmitigated disaster. Just take a stroll around any suburb and you can see the effects of your "faster, fairer, simpler" catchcry. In-fill housing, "toy town" developments with concrete, concrete and still more concrete. Increased height of buildings causing loss of view and amenity to neighbours. Loss of local character and heritage. The list goes on, Mr Gutwein. No, the "faster fairer simpler" catchcry benefits the developers, not the Tasmanian people. There is no democracy in this process Mr Gutwein and never has been since day one. Roll on the election when the people of Tasmania can reassert their democratic right to elect those persons into power who will listen to them.
