

# Vista ruined

I AGREE with the sentiments (Letters, June 19) regarding the proposed development in Kangaroo Bay. It is highly inappropriate. Clint Ayers hit the nail on the head when he said this council's legacy will be that it ruined Kangaroo Bay for generations to come.

Our mayor and his fellow councillors have rolled over. They are not representing the very ratepayers who elected them. I urge all Clarence ratepayers to do what I have done and email each and every one of them to remind them that it is us they should be representing, not Shandong Chambroad's interests.

There are so many things on the nose about this development; the handing over of Crown Land to a foreign entity, flagrant disregard of planning rules, inadequate parking provision, the list goes on. Mark my words, if this project gets up and running, they will bring their own staff with them, affording very little opportunity for young locals. Bring on council elections, I say.
